**Recreation  
Registration  
Continuing**

Registration for all summer programs sponsored by the Torrance recreation department are being accepted during "Registration Open House" which will continue from 2 to 8 p.m. today and Friday and from 9 a.m. until noon on Saturday at the city plunge, Madrona and Torrance Boulevard.

Activities scheduled by the city for the summer include swimming classes for children and adults, swim bus service tickets, modern dance instruction, the annual "Fun Through Music" program, youth drama workshop, arts and crafts classes, golf for youth and adults, tennis, creative arts workshops, and many others.

A schedule of all programs has been prepared and is available through the recreation department office in the city hall.

**Two Torrance  
Men Take Top  
Speaking Nod**

Torrance man James Barton had the unprecedented honor of winning both the table topics award and the first prize in the formal speaking portion of Southbay Toastmaster's club 280's regular Wednesday evening meeting. Dr. W. J. Labit of WALTERIA took home the second prize for the evening.

The meeting, held at the Redondo Beach Elks Club, was also noteworthy because of the special emphasis laid on the parliamentary procedure portion. Club president James McDonald, of Manhattan Beach was subjected to a rigorous test at his knowledge of how to conduct a meeting, and all the attending members, as well as the guests, learned something about how a parliamentary discussion is conducted.

Table topics, a regular part of the program, consisting of extemporaneous speeches by the club members on various subjects was especially lively due to a series of salesman-customer techniques that were demonstrated. Everything from pills to penthouses were "sold" or "resisted" by the salesmen and customers of the evening.

**Signals Play  
Important  
Driving Role**

"Too many motorists are either ignoring or improperly using required driving signals," California Highway Patrol Commissioner Bradford M. Crittenden declared today.

"The only means available for communicating with other drivers or pedestrians sharing the roadways are stop lights, directional or arm signals, the horn, and the manner and position in which your vehicle is operated.

"Modern driving conditions demand that each motorist use appropriate signals to indicate an impending change in direction or deceleration, and such signal, to be effective, must be clear and easily understood," the Commissioner added.

"The law requires a continuous signal during the last 100 feet before turning left or right. Beyond this, however, it also forbids a change in direction upon a roadway until it may be accomplished with safety.

"Motorists who fail to use proper signals are not only subject to arrest, but are also contributing heavily to the frustrations of everyday driving," he concluded.
